The international conference Mathematics, Numerics and Applications (MNA 2022) will be held in Budva, Montenegro on June 1-3, 2022. The event will take place over three days, with presentations delivered by researchers from the international community, including presentations from keynote speakers and state-of-the-art lectures. The aim of the conference is to bring together experienced scientists and young researchers from all over the world who work in the fields of Pure, Computational and Applied Mathematics and to encourage collaboration, exchange of new ideas and discussion of challenging issues. The conference is dedicated to the renowned mathematician Miodrag Spalević on the occasion of his 60th anniversary. Miodrag Spalević, born in Peć, SFR Yugoslavia, 6 June 1961, is a professor at the University of Belgrade Faculty of Mechanical Engineering. Professor Spalević achieved notable scientific results in the field of Numerical Analysis, especially in the study of Gaussian quadratures. The conference topics include (but are not limited to) all the research areas of Numerical Analysis and Computational Mathematics, in particular Numerical Integration, and all the research areas of Pure and Applied Mathematics.
