Belgrade, June 6 – 10, 2022

The international conference NUMERICAL METHODS FOR LARGE SCALE PROBLEMS (NMLSP 2022) will be held in Belgrade, Serbia on June 6 - 10, 2022. Presentations will be delivered by researchers from the international community. The aim of the conference is to bring together leading scientists of the international Numerical and Applied Mathematics community and young researchers from all over the world working in mathematics and its applications to present their research, exchange ideas, discuss challenging issues, and foster future collaborations. The conference will cover many topics in Applied and Computational Mathematics with a focus on inverse problems, linear algebra, quadrature, approximation theory, numerical analysis, computational methods, uncertainty quantification, machine learning, and networks.

Scientific Committee:

Alessandro Buccini, Italy
Maria Carmela De Bonis, Italy
Marco Donatelli, Italy
Christos Koukouvinos, Greece
Gradimir Milovanović, Serbia
Donatella Occorsio, Italy
Mirjeta Pasha, U.S.
Lothar Reichel, U.S.
Giuseppe Rodriguez, Italy
Hassane Sadok, France
Miodrag Spalević, Serbia
Marija Stanić, Serbia
Raf Vandebril, Belgium

Organizing Committee:

Alessandro Buccini, Italy
Dušan Đukić, Serbia
Marco Donatelli, Italy
Laura Dykes, U.S.
Luisa Fermo, Italy
Davorka Jandrlić, Serbia
Rada Mutavdžić Đukić, Serbia
Mirjeta Pasha, U.S.
Aleksandar Pejčev, Serbia
Giuseppe Rodriguez, Italy, chair
Miodrag Spalević, Serbia, chair
Jelena Tomanović, Serbia

Host:

Faculty of Mechanical Engineering, Belgrade
