

At Molson Coors, we believe that our **people first values** are what makes us special and are key to our success. Working here is about more than just making beverages – it's an experience, a culture and a way of life shaped by hundreds of years of rich history. **We take pride in our brands** and the role we play in uniting people to celebrate all life's moments

If you see this as exciting opportunity, apply!

Molson Coors Europe Supply Chain Trainee Program: Supply Chain Trainee

Apatin

Trainee Program:

- 10 months of Departmental Rotations within the local Supply Chain organization, followed by a 2-month Hands-on Assignment.
- **Enhancing Expertise** through curriculums for different departments, technical literature and internal Leadership Development Programs.
- **Learning from others** through assigned mentors, working side-by-side with Operators and Team Leads on the Shopfloor, Best Practices Sharing with colleagues from other CEE countries and visiting sites at various locations in Europe, as per need.
- **Experiential Learning and Hands-on Experience** throughout the entire program through active participation in ongoing projects and by leading small improvement projects on site.

What are we looking for?

- You graduated not more than 2 years ago, or you are an undergraduate student (in your final year of studies) and are ready to take over the role starting from September 2024
- You graduated from University Degree in Technology Brewing or Food industry, Engineering (Mechanical, Mechatronics, Electrical engineering)
- You are fluent in English and feel comfortable using it in all kinds of communication
- During your studies, you participated in various extracurricular/international student projects
- You are not afraid to take over the responsibility and ownership
- You are serious about delivering results
- You are confident and competent
- You want to learn more
- You love challenges
