The international conference **Mathematics, Numerics and Applications (MNA 2026)** will be held in **Budva, Montenegro, from 26 to 29 May 2026**, at the hotel **Slovenska Plaža**. The conference will take place over four days and will feature presentations by researchers from the international scientific community, including keynote lectures and invited talks on the latest advances.

The aim of the conference is to bring together experienced scientists and young researchers from around the world working in the fields of **Pure, Computational, and Applied Mathematics**, and to encourage collaboration, the exchange of new ideas, and discussion of challenging open problems.

The conference is dedicated to **Professor Miodrag Spalević** on the occasion of his **65th birthday**. Professor Spalević, born on 6 June 1961 in Peć, SFR Yugoslavia, is a full-time professor at the **University of Belgrade, Faculty of Mechanical Engineering**. He has achieved significant scientific results in the field of **Numerical Analysis**, particularly in the theory and application of **Gaussian quadrature rules**.

The conference topics include (but are not limited to) all research areas of **Numerical Analysis and Computational Mathematics**, with special emphasis on **Numerical Integration**, as well as selected topics in **Pure and Applied Mathematics**.
