Lecturer

Prof. dr Djuro Koruga

On the occasion, the 170th anniversary of the birth of Nikola Tesla and with the aim of improving scientific and cultural cooperation between Serbia and China ("One belt, one road"), we organized this special event about Lao Zi (老子) and Nikola Tesla.

Lao Zi wrote the book *Tao Te Ching*, which is one of the most important PLANETARY philosophical and scientific works, and Nikola Tesla changed the world PLANETARY with his inventions. These two PLANETARY minds, even though they lived 2400 years apart in time, shared the similar knowledge and life values.

We look forward to seeing you and having the opportunity to feel together the depth of the need for PLANETARY knowledge and a community based on the principles of knowledge, peace, freedom and ethics.
